

OnDemand™

Integrated Printing Module

This plug-in software module prints electrical schematics, energy guides, rating plates, shipping labels, bill of materials, or any other print job when you need it most—on-demand. This module may be integrated into any IPCS station or serve as a stand-alone system. Multiple printers and print jobs may be executed from the OnDemand™ module.

Features:

- Plug-in software module
- Print examples: electrical schematics, energy guides, rating plates, shipping labels, bill of materials, etc.
- Windows® platform

Advantages:

- Placement flexibility, integrating with any IPCS module or as a stand-alone station anywhere in your plant
- Demand Flow Technology lets you print what you need when you need it

Service Commitment:

- On-site start-up assistance
- On-site training
- Lifetime software warranty
